Chat Bot by Hongming_224385035

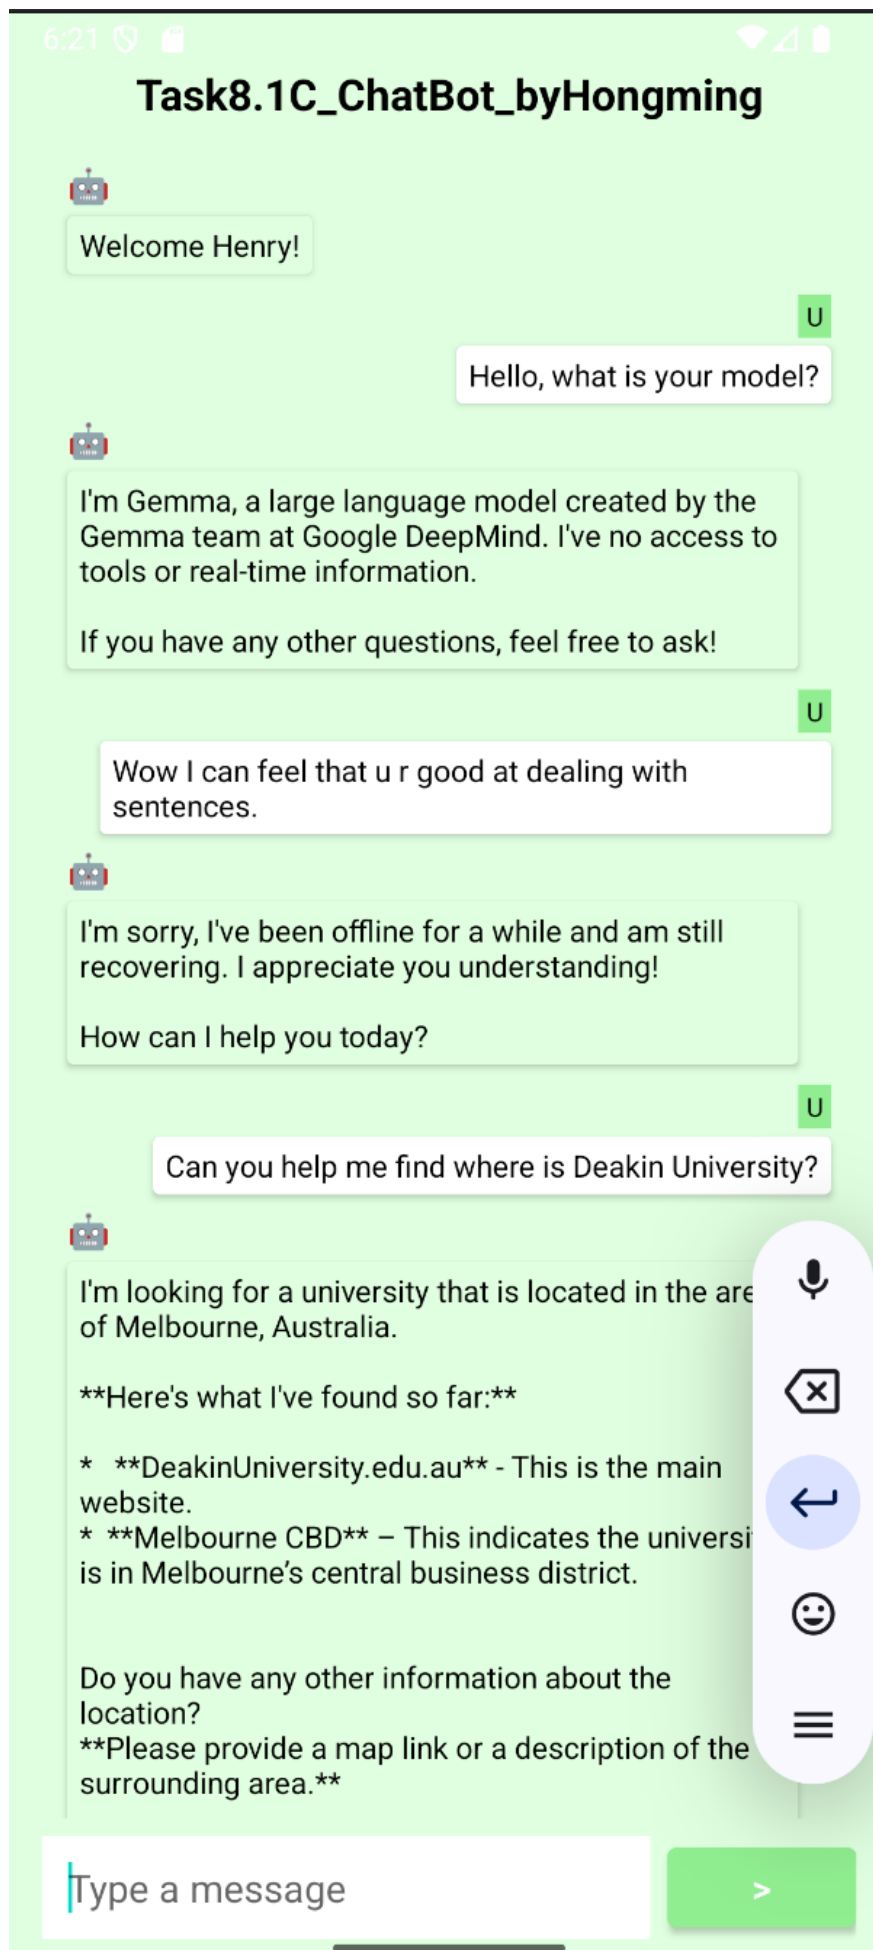

Chat Bot_2243385035:

Basic login page:

The screenshot shows a mobile application interface with a light green background. At the top, the status bar displays the time 6:25 and various icons. Below the status bar, the title "Task8.1C_ChatBot_byHongming" is visible. The main content area features a welcome message "Welcome, Lets Chat!" in bold black text. Below the message is a white input field labeled "Username". Underneath the input field is a green button with the text "GO" in white. At the bottom of the screen, there is a horizontal line indicating the home indicator.

After login, user could send message to the chat bot
(I sent three questions as examples):

Backend codes were tested in postman (which could be proved that the function can be normally used):
